**The Lee Company, Electro-Fluidic Systems Division  
Proposition 65 Compliance Statement**

Thank you for your inquiry regarding The Lee Company's approach to compliance with California's Proposition 65 (also known as the Safe Drinking Water and Toxic Enforcement Act of 1986). At The Lee Company, we endeavor to adhere to the laws of all jurisdictions applicable to our operations, including Proposition 65. As a result, we pursue testing and/or include a warning label for any product which we reasonably believe may expose an individual to one or more of the chemicals designated on the list maintained by the California Office of Environmental Health Hazard Assessment. That list is available at the following link: <https://oehha.ca.gov/proposition-65/proposition-65-list>.

Product manufactured by The Lee Company, Electro-Fluidic Systems Division may be shipped directly to customers in California or contained in customer devices, systems, assemblies, etc. that are subsequently shipped to California. The Lee Company, Electro-Fluidic Systems Division includes a Proposition 65 Warning label on product packaging indicating that our product may have been exposed to or contains one or more chemicals listed on our warning label. The chemicals indicated on our labels are listed within the Proposition 65 website referenced above.

Per the California law, at least one compound must also be specified on a warning label. Note that The Lee Company Products, EFS Division, are not designed to release any chemicals or compounds.

Signed:
