The Lee Company – IMH Group TSCA PBT Declaration

Dear Valued Customer,

The Environmental Protection Agency's Toxic Substance Control Act (TSCA) prohibits the processing and distribution of five persistent, bio accumulative, toxins (PBTs) and prohibits processing and distribution of products containing them. The PBTs are:

- decabromodiphenyl ether (DecaBDE)
- phenol, isopropylated phosphate (3:1) (PIP (3:1))
- 2,4,6-Tris(tert-butyl)phenol (2,4,6-TTBP)
- hexachlorobutadiene (HCBd)
- pentachlorothiophenol (PCTP)

The Lee Company IMH Group has completed a review of the substances used in the IMH Group's manufacturing processes. Based on that review, none of the substances used in the IMH Group's manufacturing processes contain any of the PBTs listed under the TSCA. Therefore, to the best of our knowledge, none of the five listed PBTs are found in IMH Group's products.

Best Regards,

The Lee Company - IMH Group
